

Register on [Eduphoria](#)

You can register for sessions that you would like to attend on the Technology Professional Development Day. We will have four sessions in the morning, break for lunch, then resume with an afternoon Work Session to explore new learning with support personnel to assist with activities. There will be an optional 5th session for those who are interested. Teachers who are not in labs will need their computers during the afternoon Work Session.

Visit and join the [Secondary PD Wiki](#) to access agendas, material, notes, and resources for various topics that are presented .

For information call the Technology Help Desk at ext. 2000 or email

Web 2.0 Tools:

Each session will introduce various tools that the presenters use in their job assignment.

Smart Board:

LCM Smart Board users will share favorite lessons, tips, and features of Smart Board that are used to enhance teaching and learning in their classrooms.

CSCOPE:

Explore an all-in-one approach to a quality curriculum system built on the most current research-based practices.

Multimedia Video:

Discover how to create and edit multimedia videos for use in the classroom environment.

Interwrite Tablet:

Discover how to use the Interwrite tablet more effectively to enhance teaching and learning.

Verizon:

Showcasing electronic tablets for use in the classroom.

Easy Tech:

Discover how to enter your own Easy Tech curriculum, web-links, and search the Database to supplement your curriculum.

Prezi/Blogs:

Presenters will share experience using Prezi and Blogs with secondary students.

Moodle:

It is a free web application educators use to create effective online learning sites.

Discovery Streaming:

Learn to set up students in a class and assign videos and related materials that can be graded within Discovery Education Streaming's interface.

Wikispaces:

Teachers who use Wikispaces will share their wikis and explain how it is used in teaching and learning.

Digital Storytelling:

Learn the tips and benefits of digital storytelling and discover various programs to use.

Electronic Textbooks:

Discover the benefits of using electronic textbooks and discover how to set up your classes.

Picasa and Picnik:

Use Picasa in your class to manage photos and make your lessons more effective.

Curriculum Resources:

Discover resources that are available to you that will enrich and support your curriculum.

Project Share:

Discover the many resources the state provides to teachers and how you can get started today.

Skype:

Skype is a free software program to communicate and collaborate with others. We will explore potential uses for Skype in the classroom.

Gaggle:

Discover the new applications in Gaggle to enhance the teaching and learning process.

Eduphoria Aware:

Develop confidence and skills in the use of Aware.
